ABOUT ME

Computer Engineering Graduate with a strong passion for technology and innovation. Highly self-motivated, quick to learn, and adaptable, with a proven ability to build quality skills and deliver effective solutions in dynamic and challenging environments. Eager to contribute technical expertise and a growth mindset to forward-thinking teams and projects.

EDUCATION

2021 - 2025
Advanced College of Engineering and Management

Bachelor's in Computer Engineering

2017 - 2019
National Infotech

+2 Science

EXPERIENCE

Flutter Developer
Goodwish Engineering Pvt. Ltd.
August 2025 - November 2025

- Developed Flutter mobile applications with clean UI and reusable widget architecture.
- Integrated REST APIs for data fetching, authentication, and backend communication.
- Implemented State Management for smooth app flow and scalability.

PROJECTS

Smart Health : A blockchain based e-HealthCare solution with voice authentication
A health app using Flutter (Dart) that enables patients to book appointments, set reminders, and securely upload medical reports using AES encryption, IPFS and Solana blockchain.

Video-calling app
A Flutter-based app utilizing Agora SDK for seamless real-time video calls with low-latency communication.

Brain Tumor Classification using AI/ML
A website that detects brain tumor types from MRI images using TensorFlow and a trained CNN model.

Maze : Computer Graphics
A simple 2D game developed in C, showcasing foundational computer graphics concepts like transformations and animations.

Medicine Reminder App
A Flutter app that uses Local Notifications to send timely reminders for scheduled medications.

SKILLS

Technical Skills

- Flutter (Dart)
- C and C++
- Html, CSS, Javascript
- Github
- AI/ML
- Google colab
- Python proramming
- MS office

Soft Skills

- Problem solving
- Communication
- Interpersonal
- Teamwork
