SUMMARY

Final-year Computer Engineering student at Advanced College of Engineering and Management with a strong passion for technology and innovation. Self-motivated, quick to learn, and highly adaptable, with a proven ability to develop quality skills and deliver results in dynamic environments.

EDUCATION

Advanced College of Engineering and Management

Bachelor's in Computer Engineering
2021-Present

National Infotech

+2 Science
2017-2019

SKILLS

Technical Skills
- Flutter (Dart)
- Html, CSS, Javascript
- AI/ML
- Python proramming
- C and C++
- Github
- Google colab
- MS office

Soft Skills
- Problem solving
- Communication
- Interpersonal
- Teamwork

PROJECTS

Smart Health : A blockchain based e-HealthCare solution with voice authentication

A health app using Flutter (Dart) that enables patients to book appointments, set reminders, and securely upload medical reports using AES encryption, IPFS and Solana blockchain.

Brain Tumor Classification using AI/ML

A website that detects brain tumor types from MRI images using TensorFlow and a trained CNN model.

Video-calling app

A Flutter-based app utilizing Agora SDK for seamless real-time video calls with low-latency communication.

Maze : Computer Graphics

A simple 2D game developed in C, showcasing foundational computer graphics concepts like transformations and animations.

Medicine Reminder App

A Flutter app that uses Local Notifications to send timely reminders for scheduled medications.
